Physical Space Inventory

Fall, 2014

OVERVIEW

The University experienced limited growth in fiscal year 2014; however, was able to increase the net NASF in off campus space due to various new acquisitions to expand educational services and opportunities throughout the state such as, the James 4-H Camp totaling 11,048 GSF/8,530 NASF located in Yavapai country. The James 4-H camp provides modern facilities for the 4-H Program that is grounded in experiential learning, leadership and life skill building that allows youth to reach their full potential; as well as, opportunity for visitors to enjoy other outdoor recreational activities.

As the new anchor of the University of Arizona's downtown Phoenix campus the \$135 million Health Sciences Education Building recently converted 39,254 NASF of previously classified shell space into functional areas that can be utilized for administrative and instructional purposes.

The Old Main renovation was completed this year, preserving Old Main's 122-year history of serving as the heart and soul of the campus with 15,804 NASF supporting prospective, freshman and transfer students; as well as, the Office of the President.

In addition, the University was able to provide further student housing with leasing of the Rawls/Eller Lodge (29,885 GSF/26,000 NASF) with amenities that include: private bathroom for each room, common studying space, free laundry and an outdoor courtyard.
