Physical Space Inventory

Fall, 2011

OVERVIEW

In fiscal year 2011, the University of Arizona saw an increase of nearly 400,000 gross square feet (GSF) primarily on main campus. The completion of two new residence halls on the campus' south end was the major contributor to this increase. With 231,882 GSF and 122,422 net assignable square feet (NASF), Arbol de la Vida Residence Hall is now the largest residential building at the University. The second residence hall completed this year is Likins Hall, which added the remaining 131,391 GSF and 70,783 NASF.

Although main campus' space had an overall increase, the Non-Residential - Permanent category of space saw a slight decrease due to the demolition of a former fraternity house located on North Vine Avenue. This, along with other adjustments made to main campus' space, resulted in an 8,000 square foot loss in net assignable square footage.

Off campus, the UA entered into a 22,714 GSF lease with Pima County for the Roy Place Building located at 44 N. Stone Ave. Roy Place extends the UA's presence to downtown Tucson and houses the Drachman Institute along with department within the College of Social and Behavioral Sciences.

Ownership of Biosphere 2 was officially transferred to the University in Fall of 2011. The previously leased property includes 30 buildings, ranging from one of a kind research facilities, to office and conference space.
